

STEP INTO AGRICULTURE

S

SOLUTIONS

Agriculture is about finding solutions

- Learn how to produce more food with less land and less water
- Farm sustainably with the environment and address climate change

H

HANDS ON

Agriculture applies what is learnt in the classroom to the farm

- 30- 50 % of study is practical application of theory
- Learn by doing
- Work with animals and plants

O

OPPORTUNITIES

Agriculture has more jobs than applicants

- Work in jobs you didn't even know existed
- Agriculture happens in major cities, remote stations and everywhere in between
- Jobs that help feed and clothe the nation

E

ENTREPRENEUR

Agriculture explores how to

- Manage a business from growing the produce to selling to a market
- Embrace the latest technology to farm more efficiently with less resources

S

SKILLS

Agriculture teaches you to

- Collect, analyse and organise information
- Communicate ideas
- Work in a team
- Apply and use technology, machinery, materials and equipment

WHAT SHOES WILL YOU WEAR?
